Atlas 421 Booster Insanity!

By Carlpilot

Atlas 421 Booster Insanity!

Requires Velcro Rockets, Velcro Saturns, and Velcro EELV.

Velcro Rockets Velcro Rockets

Velcro EELV Velcro EELV

Velcro Saturns Velcro Saturns

This rocket is an Atlas 421 with Saturn S-1C rocket boosters on it. This rocket can achieve GTO (Geostationary Transfer Orbit) quite easily.

Press "O" to start the engines. The rocket will lift at a surprising speed and top off at around 1,067 km.
