

## Paradox-ReFuel Titan - VOR PRF, 122.70, Range 500km

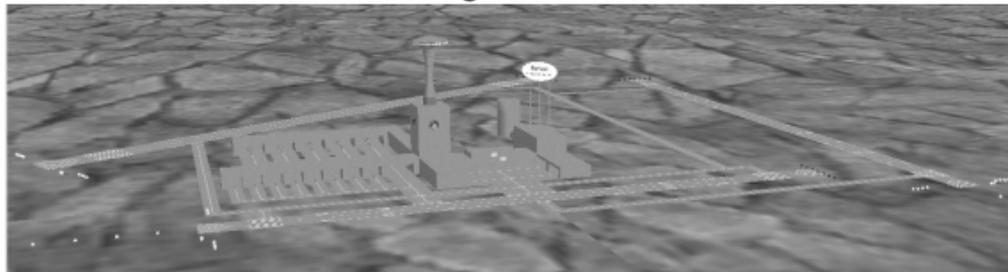

Titan: 90.000° E, 0.000° N

### VTOL Pads:

None

### Runways:

Runway 15/33:	110.6/110.5MHz	Length: 2950m
Runway 09/27:	110.1/110.2MHz	Length: 2650m
Runway 18/36:	110.4/110.3MHz	Length: 2200m

### Notes:

Paradox-ReFuel Titan is a joint effort by Paradox Shipyards and ReFuel LLC to establish a combined base of operations on Saturn's moon Titan. ReFuel conducts fuel processing and refuelling operations on the surface, while Paradox Shipyards uses the thick atmosphere and low surface gravity to facilitate testing of ship designs.
