Drop the payload and close the mission,congratulations!

! For an easier flight deacive the complex flight model by going in the Multistage2015 MFD and clicking on COM!

Credits & Thanks

Addon Created by Francy03(or BrokenBaron) & thanks to:

-Dr.Martin Shweiger for Orbiter

-Fred18 for Multistage2015

-Forum Orbiter Italia for technical support

- Fausto (FOI) for mesh and texture of the launchpad

-My parents because without them I'd never be here

- Historical sources by Wikipedia & Encyclopedia Astronautica

Bug Report

This is a test beta so report any bugs on FOI(ita)

o su OF(eng)

3D models are a test so I'll improve it later so don't worry if they're ugly
